## I-sys Corporation opens regional office in Southhampton, Bermuda

SOUTHAMPTON, BERMUDA (January 1, 2010) – South Carolina-based *i-sys corporation*, a leading global provider of field-proven security management systems and state-of-the-art fire and life safety systems, announces the opening of a regional office in Southhampton, Bermuda. The opening of the Bermuda office coincides with i-sys winning the contract for upgrading the fire safety and security systems at the L.F. Wade International Airport in Bermuda... and with the appointment of Kevin McNeil as the regional manager for **i-sys Bermuda**. McNeil brings to the table, 18 years of experience in the field of electronic security, environmental and fire protection systems. Prior to joining **i-sys Bermuda**, McNeil owned his own security company in Southhampton, Bermuda. In this capacity, Kevin developed strong vendor alliances on the island and built a loyal customer base.

“We were delighted to have someone of Kevin’s caliber onboard at i-sys to run the day-to-day operations of our new regional office in Bermuda and to oversee the installation of the upgrades to the fire safety and security systems at the L. F. Wade International Airport,” comments Bill Ohlendorf, president and CEO of *i-sys corporation*. “Our new office in Bermuda demonstrates our commitment to the region’s growing demand for security and environmental systems, both in the government and private sectors. Our Bermuda team is dedicated to promoting our products and services to new customers in Bermuda and building on the relationships developed by our regional manager, Kevin McNeil.” The new regional office of **i-sys Bermuda is located** at 14 Rosehill in Southhampton, Bermuda.

### ABOUT I-SYS CORPORATION

According to Bill Ohlendorf, there are two critical components to the *i-sys Success Story*. “When i-sys was founded in Charleston, SC more than a decade ago, we built the company around two core values... a passionate commitment to customer service, and a business model that meets or exceeds the global demand for integrated security, environmental, communications and fire safety solutions. Whether a business is across the street or on another continent, we will invest the time to understand how the customer’s business works-- in every room of every building-- at every campus or building complex. It does not matter if the customer needs a person, a truck or a team, they can count on i-sys. We’ll be on-site whenever and wherever we are needed... in Southhampton, Bermuda or anywhere in the world!” This is one of the many reasons why customers have chosen to entrust the control of their security, environmental and communication systems to i-sys.

## I-sys Corporation opens local office in San Francisco Bay Area

SAN FRANCISCO, CA (January 1, 2010) – South Carolina-based *i-sys corporation*, a leading global provider of field-proven security management systems and state-of-the art fire/emergency notification systems, announces the opening of a local office in San Leandro, CA. Along with the i-sys regional office in Sacramento, the **San Francisco** team will serve customers not only in the Bay Area, but around the world. The opening of the San Francisco office coincides with the appointment of Jim Duarate as the general manager of **i-sys San Francisco**. Durate brings to the table, 20 years of experience in the fields of electronic security and fire/emergency notification systems. Prior to joining i-sys, Duarte worked as a fire/emergency notification engineer and consultant in the Bay Area. In this capacity, Jim developed strong professional alliances and a loyal customer base. Duarte is a member of the National Fire Protection Association, the California Fire Protection Association and the Society of Fire Protection Engineers.

“We were delighted to have someone of Duarte’s caliber onboard at i-sys to run the day-to-day operations of our local office in the Bay Area,” comments Bill Ohlendorf, president and CEO of *i-sys corporation*. “The new office in San Francisco demonstrates our commitment to the Bay Area’s growing demand for security and fire/emergency notification systems, both in the government and private sectors. Our San Francisco team is dedicated to promoting all i-sys products and services to new customers in the Bay Area as well as building on the relationships developed by Jim Duarte.”

### ABOUT I-SYS CORPORATION

According to Bill Ohlendorf, there are two critical components to the *I-sys Success Story*. “When i-sys was founded in Charleston, SC more than a decade ago, we built the company around two core values... a passionate commitment to customer service, and a business model that meets or exceeds the global demand for integrated security, environmental, communications and fire/emergency notification systems. ## I-sys Corporation Merger with Blueprint Wiring Systems expands Services in Tennessee

CHARLESTON, SC – September 28, 2009, President Bill Ohlendorf of Charleston-based i-sys corporation announced a merger between i-sys and Blueprint Wiring Systems of Knoxville, TN. Ohlendorf comments, “This merger expands our services area, better serving our customers in Eastern Tennessee.”

**Blueprint Wiring Systems:** For the past eight years, President John Isaac has expertly positioned Blueprint Wiring Systems, Inc. as one of Eastern Tennessee’s leading low-voltage communications and security systems integrators. In addition to Blueprint’s team of dedicated technicians and employees, John personally brings to the table more than twenty five years of know-how in the communications industry and a Masters Degree in technology and engineering. John’s expertise also includes the successful launch and management of ICX Online, Inc., one of Eastern Tennessee’s first commercial Internet service providers.

**i-sys Corporation:** According to Ohlendorf, “When i-sys was founded more than a decade ago, we built the company around two core values... a passionate commitment to customer service, and a business model that meets or exceeds the global demand for integrated security, environmental, communications and fire safety solutions. Whether a business is across the street or on another continent, we will invest the time to understand how your business works-- in every room of every building-- at every campus or building complex.”

**Merger of Strengths:** This merger capitalizes on the strengths of both companies providing new and existing customers with expanded resources for integrated security, communication and environmental solutions. Blueprint Wiring Systems will remain structured in its organization, supported by additional staff from i-sys Corporation. John Isaac will continue in his role as principal, while i-sys’ Vice President of Sales, Mike Prysock will oversee corporate sales.

**Continued Commitment to Customer Service:** With the expanded service area in Eastern Tennessee, i-sys will continue to provide customer service second-to-none, our industry-leading, security and environmental solutions and a wide array of integrated sound and communications systems. We take pride in being customer-focused and the entire Knoxville staff is committed to exceeding your expectations. We won’t just do the work... we’ll offer you solutions. You can count on us to...

- Handle the job (any job).
- Keep you informed.
- Give you options.
- Communicate alternatives.
- Provide you with predictable costs
- A quick response and maximum equipment life.
- Help you operate your facility to its maximum potential.

Bill Ohlendorf concludes, “Whether our customers need a person, a truck or a team, they can count on i-sys. We’ll be there whenever and wherever we are needed... in Knoxville, Tennessee or anywhere in the world!” Blueprint Writing Systems, now i-sys Corporation will remain at its current location, 1727 Amherst Road in Knoxville, TN.
